CAREER OBJECTIVE

Dedicated and experienced Production Supervisor with 5 years of professional experience at Yuva Electronics, an electronics manufacturing company involved in LED TV assembly and production. Experienced in supervising assembly-line operations, managing production teams, maintaining quality standards, achieving daily production targets, and resolving production-related issues. Looking for an opportunity in a reputed organization where I can utilize my supervisory and electronics production experience for organizational growth.

PROFESSIONAL EXPERIENCE

YUVA ELECTRONICS

Position: Production Supervisor

Experience: 5 Years

Industry: Electronics Manufacturing – LED TV Assembly & Production

Roles & Responsibilities

- Supervised daily **LED TV assembly and production operations**.
- Managed and guided production workers on the assembly line.
- Planned and allocated daily work among team members according to production requirements.
- Monitored the complete LED TV assembly process and ensured smooth production flow.
- Ensured proper assembly and installation of **LED panels, PCBs, power boards, speakers, cables, connectors and other electronic components**.
- Checked products at different stages of assembly to identify manufacturing and assembly defects.
- Coordinated with the **Quality Control team** to maintain required product quality standards.
- Identified and helped resolve production and assembly-related issues.
- Monitored daily production output and ensured achievement of assigned production targets.
- Trained and guided new workers regarding assembly procedures, work instructions and quality requirements.
- Ensured proper handling of electronic components to prevent damage during production.
- Ensured workers followed proper safety procedures while working with electronic equipment and tools.
- Maintained production discipline and effective coordination among team members.
- Monitored availability and proper use of production materials and tools.
- Maintained cleanliness and organized the production area according to **5S practices**.
- Prepared and communicated daily production status and work-related updates to management.
- Worked closely with production and quality teams to improve assembly efficiency and reduce production errors.
- Ensured production targets were achieved without compromising product quality.
